

F E A T U R E S

Individual compensators for the ADD-A-FOLD make it possible to have independent simultaneous control.

The compensator will help control flow on one function despite changing pressures on another.

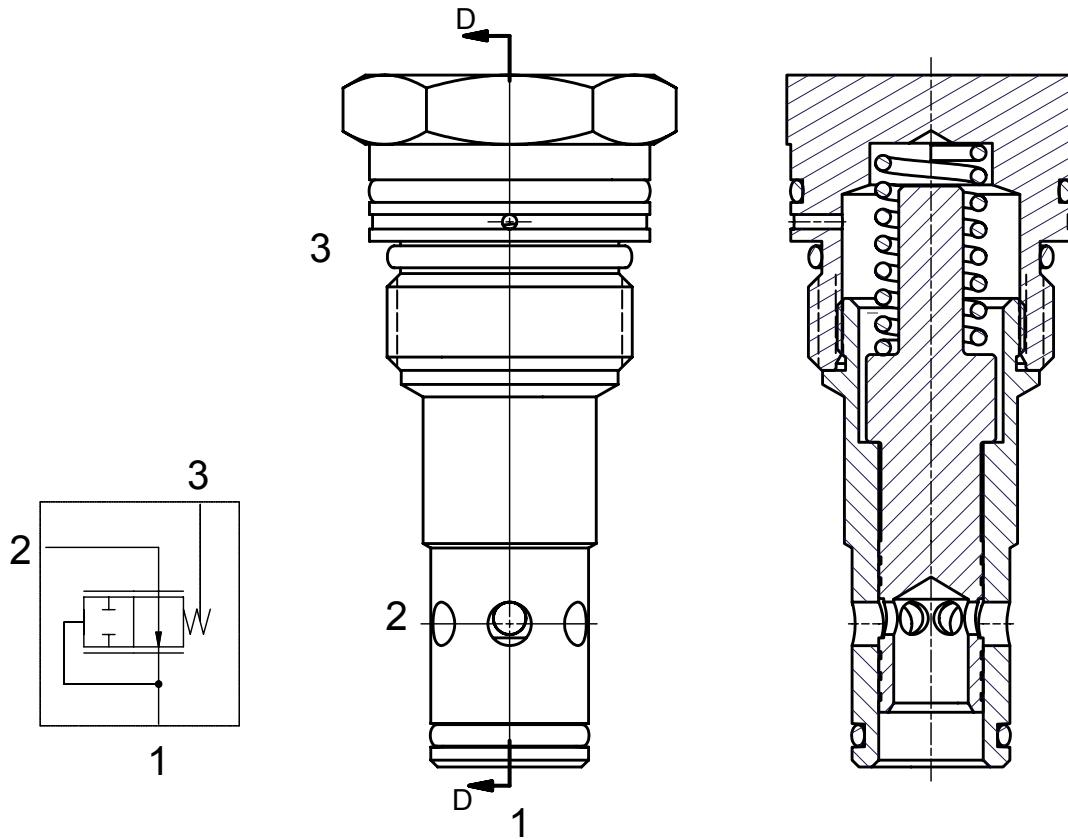

- New urethane seals
 - Eliminates the need for back-up rings
 - More durable than standard o-rings
- Eliminated the screw adjustment
 - A seldom used feature that was a potential leak point
- Thicker spool cage
 - Improved durability
- Improved load sense pickup
 - 360° pickup
