

F E A T U R E S

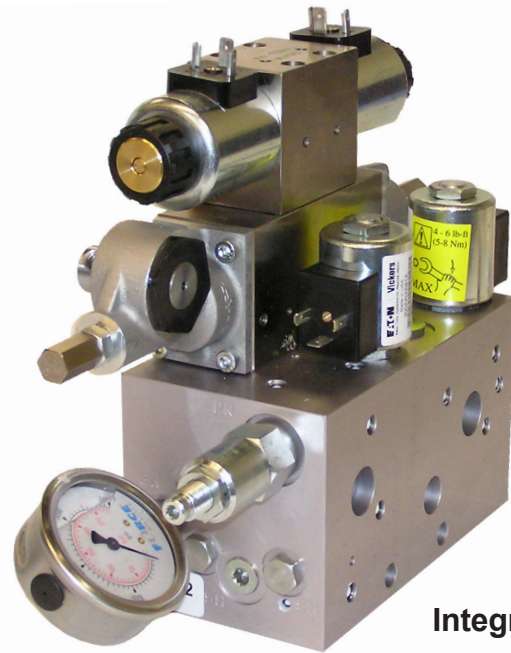

The Power Float Control Valve from FORCE America reduces the heavyweight of today's snow plows by providing continuous, controlled hydraulic pressure to the raise side of the lift cylinder.

- **Hydraulic Float Reduces Blade Wear by 66% and Extends Life***
 - Cost of valve can be recovered in just one snow event
- **Integrates into the Main Control Valve Assembly**
 - No extra plumbing needed
 - Improved durability
- **Reduced Horsepower Need - Reduces Fuel Consumption**
- **Single Acting or Double Acting Application**
- **For Use in "Load Sense" Systems Only**
- **External and Integrated Valve Options Available**
- **Valve Provides a Counterbalance Action to the Weight of the Blade**
- **Simple Installation**

* Based on municipal customers in the midwest who had three snow events in December 2009. The plow truck with the FORCE America Power Float Control Valve went through only one set of cutting edges. The remainder of the fleet went through three sets of cutting edges, at \$500 per set.

External Valve

Integrated Valve
